

Tech & Inventions Flashcards

Cut out your flashcards along the dotted line. Then, fold each flashcard along the solid line and tape it closed. Use the remaining time to practice using your new flashcards!

Electricity	Flow of electric charge.
Circuit	Electricity pathway.
Battery	Stores energy.
Conductor	Allows electricity to flow.

Insulator	Blocks electricity.
Magnet	Has north & south poles.
Electromagnet	Magnet using electricity.
Simple Machine	Makes work easier.

Lever	Pivoting bar.
Pulley	Wheel with rope.
Inclined Plane	Slanted surface.
Wheel & Axle	Rotating machine.

Screw	Twisted inclined plane.
Wedge	Splitting tool.
Robot	Task-performing machine.
Code	Computer instructions.

Sensor	Detects changes.
AI	Machines that learn.
Engine	Creates motion.
Prototype	Test version.
